

FME3536 Readings in Industrial Management 7.5 credits

Litteraturstudier i industriell ekonomi

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for FME3536 valid from Autumn 2014

Grading scale

Education cycle

Third cycle

Specific prerequisites

PhD students within the research subject Industrial Engineering and Management

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

By the completion of this course participants will have the needed literature base and theoretical framework for their research work within the field of Industrial management.

Course contents

The specific content is decided according to the research area within which the individual PhD-student is working.

Disposition

The basic premises are individual literature studies. The course format is however tailored to fit the needs of the individual students.

The course is given in English.

Course literature

Literature equivalent to at least 800 pages. Information on literature included is given at course start.

Examination

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Other requirements for final grade

Hand in of a written essay reflecting the course material.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
