

# FMH3115 Phase Transformations in High Performance Materials: Driving Forces and Mechanisms 18.0 credits

Fasomvandlingar i högpresterande material

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

#### Establishment

Course syllabus for FMH3115 valid from Autumn 2017

# Grading scale

#### Education cycle

Third cycle

# Specific prerequisites

# Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

# Intended learning outcomes

#### Course contents

#### **Course literature**

Hillert; Phase Equilibria, Phase Diagrams and Phase Transformations, 2:nd ed.

Hand-outs

Ågren; Compendium in Phase Transformation.

# Examination

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

# Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
