

# **FMH3623 Seminar Course in Atomic- scale Materials Science 6.0 credits**

**Seminariekurs i materialvetenskap på atomär skala**

This is a translation of the Swedish, legally binding, course syllabus.

## **Establishment**

Course syllabus for FMH3623 valid from Spring 2019

## **Grading scale**

P, F

## **Education cycle**

Third cycle

## **Specific prerequisites**

Admitted to PhD studies

Basic courses within Quantum Mechanics and Statistical Physics, or equivalent

## **Language of instruction**

The language of instruction is specified in the course offering information in the course catalogue.

# Intended learning outcomes

## Course contents

## Examination

- SEM1 - Seminar, 6.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
