

FMH3900 Research Planning and Supervision 6.0 credits

Forskningsplanering och handledning

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

Course syllabus for FMH3900 valid from Autumn 2020

Grading scale

P, F

Education cycle

Third cycle

Specific prerequisites

Admitted to doctoral studies, in the subject area of materials science and engineering.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After completing the course, the student will have acquired:

- the practical knowledge of individually supervising students

- the ability to plan and carry out a longer project through the supervision of a student
- the above under the supervision of a student project
- knowledge in how to individually supervise a student

Course contents

Individual supervision of students in a degree project and to plan and carry out research work through supervision of a student.

Examination

- PRO1 - Project, 6.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
