

FSD3401 Design and Construction Tasks 6.0 credits

Design och konstruktionsuppgifter

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for FSD3401 valid from Autumn 2018

Grading scale

P, F

Education cycle

Third cycle

Specific prerequisites

Only for Ph.D. students

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The aim is to give the student wider knowledge within his/her subject area by conducting an extensive engineering assignment in design and construction.

Course contents

Is decided together with the supervisor and depends on the task chosen. The course could also include the study of literature necessary to perform the task.

Course literature

Decided on an individual basis.

Examination

- PRO1 - Project work, 6.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Other requirements for final grade

Written report or presentation.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
