P, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

General entry requirements.

Knowledge and experience connected to sports practice as active sportsmen or women or as a coach.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The course's objectives are to give understanding in and tools for how top athletes can structure their life with procedures for different activities when sports are set in focus.

The course will also give the students understanding in and tools for how mental pressure in connection with sports performances, training and competition will be handled.

The course will also give knowledge about how brain and body react before expectations and how one can accustom and prepare as well to handle these.

After completing the course student should be able to:

- Make up long-term aims for its sports investment
- Make up secondary aims (years' and period objectives)
- Make plans for important sports activities that must be organized in order to reach the aims
- Formulate plan periods
- Allocate each period, days, weeks and months a concrete content that joints against the aims
- Clarify decisions that are the basis of above described planning
- Understand how and why one reacts on both internal and extraneous expectations
- Understand how one can accustom oneself to better handle expectations
- Describe different methods in order to handle expectations
- Practice methods for personal development
- Prepare oneself to use these methods
