

HM2005 The Organisation and the Management System 7.5 credits

The Organisation and the Management System

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for HM2005 valid from Autumn 2010

Grading scale

A, B, C, D, E, FX, F

Education cycle

Second cycle

Main field of study

Specific prerequisites

Since this is a spring semester (semester 2) study course in the degree of master programme TPLVM one needs to have at least 10 ECTS credits from the autumn semester (semester 1) study courses in order to be registered and thus start the course.

To take it as a single course one needs to be eligible to the program and not admitted to the programme.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After finishing the study course the participant shall be able to:

- Define the strategy of an organisation
- Make a communication map of the main processes
- Define the connection between an organisation's strategy and the management system
- Perform a strategy deployment as a basis for the management systems and the processes
- Create the processes of an organisation as part of the management system
- Make implementation plans for processes and management systems
- Create a follow-up system based on measurements to control the management system and the processes
- Using visualising methods for feed back to personnel
- Managing a continual improvement system

Course contents

Analysis of what is strategy and how is it linked to the decisions and performance of an organisation. Deployment of policies and strategies are connected to the performance of an organisation. Finding the communication pattern in an organisation and using that to define the necessary processes. The obstacles and the effect of company culture on the implementation is discussed and analysed. Also discuss how to measure and visualise the progress and results of an organisation and use those measurements for controlling the performance and to be used for continual improvements.

Course literature

Compendium and handouts
