# Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

# Intended learning outcomes

After completing the course the student should be able to:

- define and discuss basic concepts which deals with design, division and coordination of work
- explain design of work and production systems and their relationships with job satisfaction and productivity
- propose and motivate changes in an existing work organisation with support from basic theories and principles in the field
- design a concept for a successful change program

# Course contents

- work organization theories based on production technology and behavioural perspectives
- history and developmental trends within work organisation
- leadership
- change strategies
- design of work organization
- work environment legislation

# Disposition

The course comprise lectures, seminars and project group work and is partly based on the students work experience.

# Course literature

-Bruzelius, L.H., Skärvad, P.-H. (2004) Integrerad organisationslära. Studentlitteratur (9:e upplagan).

-Handouts

# Examination

- PRO1 - Group Task, 2.0 credits, grading scale: P, F

- TEN1 - Examination, 4.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
