First cycle

Main field of study

Technology

Specific prerequisites

Completed course HS1015 Construction Management

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

Upon completion of the course, the student shall be able to:

- produce a detailed production plan for a simple construction project with regards to construction management
- present worksite plans for setting up, purchasing, materials management, management, etc
- draw up a complete tender, complete a tender calculation for a major project

Course contents

- Construction management
- Construction systems and construction methods
- Financial control and quality assurance
- Material management and purchasing
- Supervision at the worksite
- Sustainability aspects of the above listed subjects

Examination

- PROA - Project Assignment, 5.0 credits, grading scale: A, B, C, D, E, FX, F
- TENA - Examination, 2.5 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Other requirements for final grade

To receive a final grade for this course, a passing grade on the written examination (TENA, 2.5 credits) as well as grade E or higher on the submitted assignments (PROA 5.0 credits) is required.

Overall course grade is based on grading scale A-F.

Ethical approach

- All members of a group are responsible for the group's work.

- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
