Grading scale

P, F

Education cycle

First cycle

Main field of study

Built Environment, Technology

Specific prerequisites

Completed secondary school or equivalent including Swedish and English) is required.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The student will obtain a good knowledge of the processing of building permit applications and building control, and on the Planning and Building Act's practical applications.

The student should acquire how the building permit process works in practice: applications of the relevant legislation, understanding of the legal language as well as understanding of good communication with the building permit applicant, introduction to common issues from a historical perspective and regarding architecture, study visits in several municipalities.

Course contents

- Legislation relating to the role of public authority within municipalities.
- Planning and building permit process under the Planning and Building Act, from democracy issues in comprehensive planning to considerations at rebuilding and control of a technical characteristics.
- History of Architecture, to take into account when making decisions on planning applications.

Course literature

Announced when the course starts.

Examination

- INL1 - Assignment, 1.0 credits, grading scale: P, F
- SEM3 - Seminars, 4.0 credits, grading scale: P, F
- TEN2 - Written Examination, 2.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

The examination consists of compulsory lectures on 4 credits, one assignment at 1 credit and a take-home exam at 2,5 credits. Grading scale is P/F (Pass/Fail).

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.

- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
