

HU1001 Business Calculation and Decision Models 7.5 credits

Kalkyler och beslutsmodeller

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

Course syllabus for HU1001 valid from Autumn 2007

Grading scale

A, B, C, D, E, FX, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

HU1900, Business Economics and Organizational Behaviour, or corresponding knowledge.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After the course, the participants will be able to:

- Construct and solve an advanced short term calculation with free capacity including two variables (products) and several constraints
- Write out and implement different kinds of cost allocations methods
- Construct models for investment decisions: Net Present Value, Annuity, and Internal Rate of Return
- Carry out a cost variance calculation
- Solve a computer aided linear model for optimizing, so-called Linear Programming
- Choose and justify for when different types of calculations are appropriate

Course contents

The course contains two parts, Mostly traditional theory, and also some exercises. Even though the theory is traditional, the economic exercises and the surrounding references are held familiar for an engineer. The exercises are computer aided in Microsoft Excel.

Course literature

Contact the department for further information.

Examination

- TEN1 - Written examination, 6.0 credits, grading scale: A, B, C, D, E, FX, F
- LAB1 - Laboratory Work, 1.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Other requirements for final grade

Passed written exam (TEN1; 6 cr), credit rate A-F.
Passed exercises (LAB1; 1,5 cr), credit rate A-F.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
