

KE1110 Introductory Course in Chemistry 1.5 credits

Introduktionskurs i kemi

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

Course syllabus for KE1110 valid from Autumn 2013

Grading scale

P, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

Chemistry A from secondary school

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

To repeat and establish basic concepts and methods in Chemistry.

Course contents

- Chemical reaction formulas, especially for redox reactions
- The mole
- Stoichiometry
- Concentrations
- Simple chemical equilibria
- Thermochemistry and Thermodynamics

Course literature

Lisa Skedungs exempelsamling "Förberedande häfte i kemi". Den skickas ut till alla nyan-tagna studenter på Teknisk kemi och Bioteknik. Ta med er boken till kursens övningar. Ett häfte om termodynamik och termokemi delas ut under första övningen.

Examination

- TEN1 - Examination, 1.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual stu-dents.

If the course is discontinued, students may request to be examined during the following two academic years.

Other requirements for final grade

Examination

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
