

KF2080 Paper Technology, project 6.0 credits

Pappersteknik, projekt

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for KF2080 valid from Autumn 2019

Grading scale

A, B, C, D, E, FX, F

Education cycle

Second cycle

Main field of study

Chemistry and Chemical Engineering

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After completed course, the students shall be able to

- analyse a certain research task or problem
- plan how to solve the task
- perform experimental and theoretical treatments of the task
- seek information in the scientific literature and own work and put together the results to a written and oral report

Course contents

Project task chosen in “samråd” with teachers within the area(s) of paper process technology and/or paper mechanics. Experimental and/or theoretical nature.

Included items:

- Study of background
- Planning of task
- Carry out of task
- Written and oral report

Specific prerequisites

KF2040, KF2050

Examination

- ÖVN1 - Project, 6.0 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Other requirements for final grade

Project report, 6 cr.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
