

KH103V Introductory Course in Chemistry for Professionally Active 6.0 credits

Introduktionskurs i kemi för yrkesverksamma

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for KH103V valid from Spring 2014

Grading scale

P, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

Course contents

Course literature

Kursen ges via kursplattformen Bilda. Kursen använder sig av Libers nätbaserade stöd till "Gymnasie-Kemi A" som nås kostnadsfritt via din webläsare. Kursen använder sig också av material som finns tillgängligt på den kursplattform som användes.

Som ett komplement till informationen på kursplattformen är det bra, men inte nödvändigt, att ha tillgång till en kursbok för gymnasiets Kemi A, t.ex. Andersson S., Sonesson A., Stålhandske B., Tullberg A. (2000) Gymnasie-Kemi A, Liber eller motsvarande.

Examination

- INL1 - Assignment, 1.0 credits, grading scale: P, F
- INL2 - Assignment, 1.0 credits, grading scale: P, F
- INL3 - Assignment, 1.0 credits, grading scale: P, F
- INL4 - Assignment, 1.5 credits, grading scale: P, F
- INL5 - Assignment, 1.0 credits, grading scale: P, F
- RED1 - Presentation, 0.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
