

# KH1406 Swedish Writing for Engineers 7.5 credits

Skriftlig presentationsteknik för ingenjörer

This is a translation of the Swedish, legally binding, course syllabus.

## Establishment

Course syllabus for KH1406 valid from Autumn 2011

## Grading scale

P, F

## Education cycle

First cycle

## Main field of study

Technology

## Specific prerequisites

Completed upper secondary education including documented proficiency in Swedish corresponding to Swedish B, and English corresponding to English A. And the specific requirements of mathematics, physics and chemistry corresponding to Mathematics D, Physics B and Chemistry A.

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

After completing the course the students should

- have developed their writing skills
- be able to use the Swedish language to communicate in writing correctly
- be able to write technical reports and similar texts
- be able to adapt technical reports to intended readers

## Course contents

This course is studied integrated with mandatory courses in Bachelor of Science in Chemical Engineering program where written reports are included.

The students continuously work with their writing under the guidance of a teacher. The teaching/mentoring takes place in small groups and is adapted to suit the participants' linguistic level. The students have to participate actively during the course.

## Disposition

This course is studied integrated with mandatory courses in Bachelor of Science in Chemical engineering program where written reports are included.

## Course literature

Material is handed out during the course

## Examination

- INL1 - Exercise 1, 1.5 credits, grading scale: P, F
- INL2 - Exercise 2, 1.5 credits, grading scale: P, F
- INL5 - Exercise 5, 1.5 credits, grading scale: P, F
- INL3 - Exercise 3, 1.5 credits, grading scale: P, F
- INL4 - Exercise 4, 1.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Active attendance and exercises.

## Other requirements for final grade

Continuous examination as active attendance and exercises.

Examination:

INL1 (P/F)

INL2 (P/F)

INL3 (P/F)

INL4 (P/F)

INL5 (P/F)

All exercises have to be passed to pass the course.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
