

KH1406 Swedish Writing for Engineers 7.5 credits

Skriftlig presentationsteknik för ingenjörer

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for KH1406 valid from Autumn 2016

Grading scale

P, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

Completed upper secondary education including documented proficiency in Swedish corresponding to Swedish B and English corresponding to English A.

Completion of upper-secondary school from 1 July 2011 and adult education at upper-secondary level from 1 July 2012 (Gy2011)

General entry requirements and specific entry requirements: Physics 2, Chemistry 1 and Mathematics 3c. A pass in each of the subjects is the lowest acceptable grade.

Completion of upper-secondary school before 1 July 2011 and adult education at upper-secondary level before 1 July 2012

General entry requirements and specific entry requirements: Mathematics D, Physics B and Chemistry A. The grade Passed or 3 in each of the subjects is required.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

After completing the course the students should

- have developed their writing skills
- be able to use the Swedish language to communicate in writing correctly
- be able to write technical reports and similar texts
- be able to adapt technical reports to intended readers

Course contents

This course is studied integrated with mandatory courses in Bachelor of Science in Chemical Engineering program where written reports are included.

The students continuously work with their writing under the guidance of a teacher. The teaching/mentoring takes place in small groups and is adapted to suit the participants' linguistic level. The students have to participate actively during the course.

Disposition

This course is studied integrated with mandatory courses in Bachelor of Science in Chemical engineering program where written reports are included.

Course literature

Handouts will be distributed during the course

Examination

- INL1 - Exercise 1, 1.5 credits, grading scale: P, F
- INL2 - Exercise 2, 1.5 credits, grading scale: P, F
- INL3 - Exercise 3, 1.5 credits, grading scale: P, F

- INL4 - Exercise 4, 1.5 credits, grading scale: P, F
- INL5 - Exercise 5, 1.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Active attendance and exercises.

Other requirements for final grade

Continuous examination as active attendance and exercises.

Examination:

INL1 (P/F)

INL2 (P/F)

INL3 (P/F)

INL4 (P/F)

INL5 (P/F)

All exercises have to be passed to pass the course.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
