

# LS1486 Japanese B1 for Engineers 7.5 credits

Japanska B1 för ingenjörer

This is a translation of the Swedish, legally binding, course syllabus.

## Establishment

Course syllabus for LS1486 valid from Spring 2019

## Grading scale

P, F

## Education cycle

First cycle

## Main field of study

## Specific prerequisites

Basic university qualification. Completion and pass of Japanese A2 for Engineers, equivalent older course, or the equivalent knowledge demonstrated in a compulsory placement test taken before applying for the course.

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

The expected learning outcomes for the course mainly refer to the level B1 according to CEFR, the Common European Framework of Reference for Languages.

On completion of the course, the student should, in addition to what is specified in courses at lower levels, be able to:

- identify the main contents in a shorter oral presentation on familiar topics
- express his/her own opinions in coherent text and be able to write texts and give simple presentations concerning daily life, work-related issues or technology
- understand clear messages and pieces of information and participate in conversations in Japanese in everyday situations
- in Swedish identify and account for facts from authentic, technical texts
- translate technical Japanese texts within familiar subject areas by means of web-based translation programs
- search for personally relevant information in Japanese via the Internet

## Course contents

Exercises in understanding spoken Japanese and participating in conversation in a variety of situations. Exercises in expressing opinions about chosen subjects in both speech and writing. Grammar and vocabulary exercises. Active learning of about 100 additional kanji characters Overview of the structure of technical terms. Translation exercises on a variety of texts. Written exercises, e.g. simple reports dealing with subject areas familiar to the student. Facts about Japan, Japanese culture, society and technical development.

## Course literature

Course literature will be announced before the start of the course.

Recommended reference literature and electronic resources will be listed in the course information or in a similar way.

## Examination

- KONA - Assessment, 1.5 credits, grading scale: P, F
- LEXA - Continuous Assessment, 6.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

## **Other requirements for final grade**

All examination parts passed  
75% attendance

## **Ethical approach**

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
