Svenska B1/B2 för ingenjörer

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

Course syllabus for LS1532 valid from Autumn 2017

Grading scale

P, F

Education cycle

First cycle

Main field of study

Specific prerequisites

Basic university qualification. Completion and pass of Swedish B1 for Engineers, equivalent older course, or the equivalent knowledge demonstrated in a compulsory placement test taken before applying for the course.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The expected learning outcomes for the course mainly refer to the level B1 according to CEFR, the Common European Framework of Reference for Languages.

On completion of the course, the student should, in addition to what is specified in courses at lower levels, be able to:

Listening comprehension

- understand the contents of clearly spoken standard Swedish about subjects as for instance work and technology
- understand conversations and longer oral presentations such as a simple argumentation on familiar subjects, provided the language is not too formal and advanced

Reading comprehension

- understand authentic texts written in high-frequent language that concern society, work and technology

Spoken interaction

- talk and argue informally about subjects concerning daily life, current events and work, or of personal interest

Spoken production

- retell courses of events and describe impressions and experiences concerning daily life and fields of personal interest

Written production

- write texts on a variety of subjects within his/her fields of interest and emphasise the personal relevance of events and experiences

Course contents

Exercises in understanding and expressing oneself in somewhat more nuanced Swedish. Exercises in spoken communication and oral presentations Reading of authentic texts that concern society, work and technology. Production of written texts on a variety of subjects within the student's fields of interest

Course literature

Course literature will be announced before the start of the course.

Recommended reference literature and electronic resources will be listed in the course information or in a similar way

Examination

- KONA - Assessment, 1.5 credits, grading scale: P, F
- LEX1 - Continous Assessment, 6.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Other requirements for final grade

All examination parts passed
75% attendance

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
