

LT1013 School Placement 1 15.0 credits

Verksamhetsförlagd utbildning 1

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

On 14/10/2022, the Dean of the ITM School has decided to establish this official course syllabus to apply from spring term 2023 (registration number M-2022-1551). Revised 2023-04-06 according to decision by the Dean of the ITM School: M-2023-0815.

Grading scale

VG, G, U

Education cycle

First cycle

Main field of study

Technology and Learning

Specific prerequisites

For KPULU: General admission requirements.

For LÄRGR: General admission requirements with at least 90 credits of subject knowledge in the subjects of chemistry, physics, technology and/or mathematics, equivalent the content of year 1 and 2.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

1. Under supervision plan, carry out, evaluate and document lessons with contents in accordance with current regulations
2. Discuss and analyse planned and completed teaching, based on educational sciences and proven experience
3. In teaching context communicate in speech and writing with pupils and school staff in suitable ways
4. Discuss how interdisciplinary perspectives such as equality, equal opportunities, sustainable development and ethics can be brought up in the educational activities
5. Use and discuss the use of aids and support material in the form of e.g. textbooks, computer programs, calculation aids and distance teaching equipment
6. In different situations respond to pupils and school staff in a respectful way and identify and analyse own values and attitudes that can be of importance for this response
7. be able to describe, assess and give examples of his/her own strengths and areas of development, based on the experiences and the expected learning outcomes from this course, prior to the next placement course, and generally for the teacher role.

Course contents

The student is introduced to the activities and the organisation of the school by spending a longer period at a school. The student should participate in the school activities, under supervision, mainly through teaching and auscultation, but also through participation in meetings, conferences and similar. Subjects and school type should be relevant for the student's future higher education qualification.

In the studies imply, theory and practice will be integrated, based on experiences, relevant subject knowledge and systematic reflection.

Examination

- VFU1 - School placement, 12.0 credits, grading scale: VG, G, U
- SEM1 - Seminars, 1.5 credits, grading scale: P, F
- INL1 - Assignments, 1.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Other requirements for final grade

Attendance and active participation during the whole period in school.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.

Additional regulations

The course is taken in close connection to other courses during the same semester. Assignments such as observation exercises, data collection and similar, for these courses, will be set during the placement.

A student who failed in the course may take it once again (in total at most two trials, including the first). This type of limitation is allowed for courses that contain placement or equivalent (see The Higher Education Ordinance SFS 1993:100, Chapter 6, Section 21).
