

# ME2082 Minor Thesis Project within Entrepreneurship 6.0 credits

Mindre projektarbete inom entreprenörskap

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

## Establishment

Course syllabus for ME2082 valid from Autumn 2013

## Grading scale

A, B, C, D, E, FX, F

## Education cycle

Second cycle

## Main field of study

Industrial Management

## Specific prerequisites

Enrollment at ICT Innovation Masters Program.

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

Ability to apply, synthesize, and evaluate prior ICT Innovation and Entrepreneurship learning in the context of a specific technology in the frame of the master thesis.

## Course contents

The general aim of this course is to prepare for the master thesis with a project work that specifically focuses on the innovation and entrepreneurship implications of the master project. There are three central elements; possible implications for technology, possible implications for the organizational design and possible implications for the market.

## Disposition

The students will be supervised to write a minor thesis as a preparation for the master project.

## Examination

- PRO1 - Project, 6.0 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
