Lärandemål

The objective of the course is to enhance the participant's understanding of the dynamic challenges faced by entrepreneurial ventures in securing financial backing to support future growth and development.

After the course the participants will have a broad understanding about:

- Various financial sources available to different types of entrepreneurial businesses
- Basic preparation and analysing of financial statements and projections
- How to conduct a basic financial valuation of an entrepreneurial company
- Concepts and terminology related to entrepreneurial financing
- How to structure terms and conditions between entrepreneurs and external investors
- Exit possibilities for startup companies.

Kursinnehåll

The assumption in the course is that students have a limited knowledge of finance and financial statements. One of the most important outcomes of this course is to ensure that all participants develop a reasonable level of competency and comfort preparing and analysing financial information.

During seminars, the participants will practice on financial evaluations and analysis and, thus, are expected to bring laptops with Microsoft Excel or similar calculation software installed. Participants are expected to have read the assigned material and case studies thoroughly before each session.

Kursupplägg

- The classes will be based on lectures, literature, real life case studies and exercises. The course will also invite guest lecturers.

Kurslitteratur

Will be announced at the start of the course.

Utrustning
