Course contents

Business Model Innovation” takes a practical approach to understanding, designing, and testing business models. It includes analyzing existing business models, developing a business model for a new startup venture, and testing business model building block. The course offers you the opportunity to develop a unique skill set that has helped many leading entrepreneurs and enterprises. Business model innovation is at the center of value creation and many leading companies and social ventures owe much of their success to business model innovation.

This Business Model Innovation course covers:

- Business model history and significance
- Business model canvas development and refinement
- Customer development process
- Lean startup methodology
- Financial drivers of business models

Examination

- PRO2 - Project, individual, 4.0 credits, grading scale: A, B, C, D, E, FX, F
- PRO3 - Project, group, 3.5 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Compulsory attendance

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
