

# MJ2645 Project in Industrial Ecology 9.0 credits

Projekt i industriell ekologi

This is a translation of the Swedish, legally binding, course syllabus.

## Establishment

Course syllabus for MJ2645 valid from Spring 2010

## Grading scale

P, F

## Education cycle

Second cycle

## Main field of study

Environmental Engineering, Mechanical Engineering

## Specific prerequisites

Previous knowledge is assumed equivalent to NJ2611 and MJ2613 or MJ2620 or MJ2621 or MJ2640 or MJ2651 or MJ2652 or MJ2663 or MJ2681 or MJ2691.

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

The course is a project oriented advanced course in industrial ecology. The aim is to provide – through some smaller projects – deeper knowledge in industrial ecology.

After a passed course the student should be able to independently collect information from scientific literature and other information sources in industrial ecology, make a compilation of this information, and analyse it in a written report.

## Course contents

The course is a project oriented advanced course in industrial ecology. The aim is to provide – through some smaller projects – deeper knowledge in industrial ecology.

## Examination

- PRO2 - Project Work 2, 3.0 credits, grading scale: P, F
- PRO1 - Project Work 1, 3.0 credits, grading scale: P, F
- PRO3 - Project Work 3, 3.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
