Grading scale

A, B, C, D, E, FX, F

Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

Intended learning outcomes

Having passed the course, the student should be able to:

- prepare and execute a project plan for a product development project
- account for the importance of teamwork and cooperation in multi-disciplinary and multicultural project groups

- Identify and evaluate ones own behaviour in working groups and relate this to the dynamics of the working group
- evaluate new technologies and describe the changes that the technical development means for society
- identify, prioritise and apply relevant design parameters for the product development
- orally, in writing and by means of required physical models present the result of a product development project
- identify and apply different approaches and positions with regard to ethnicity, diversity, ethics and gender

Course contents

Examination

- PROA - Project and exercises, 7.5 credits, grading scale: A, B, C, D, E, FX, F
- REDA - Written and/or oral reports, 7.5 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Examiner determines, in consultation with KTH's coordinator for disabilities (Work), about possible adapted examination for students with documented, permanent disabilities. The examiner may permit other examination formats at the re-examination of individual students.

Transitional regulations

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
