P, F

## Education cycle

First cycle

## Main field of study

Technology

## Specific prerequisites

The specific prerequisites for a degree project of 15 credits at undergraduate level are:

- courses of at least 120 credits from the syllabus years 1-3 must be completed for students in programme where the degree project begins in period 3.

These mandatory courses are relevant for the thesis and must be completed: ML1503, ML1504 ML1505 and ML1508

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

After passing the course, the students should be able to:

## Course contents

- A common theme within which the students independently should formulate their own problem
- Inspirational lectures on the given theme
- Supporting lectures on scientific work method: information retrieval, report writing, etc.
- Oral presentations at seminars
- During the whole course: independent work with problem formulation, information retrieval, project planning and project follow-up, oral presentations and report writing

## Examination

- XUPP - Degree Project, 15.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
