SA1002 Individual Complementary Course B 4.5 credits

Individuell kompletteringskurs B

This is a translation of the Swedish, legally binding, course syllabus.

Establishment

Course syllabus for SA1002 valid from Autumn 2007

Grading scale

P, F

Education cycle

First cycle

Main field of study

Physics, Technology

Specific prerequisites

Students attending the master of science programme in Engineering Physics (5 years).

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The goal is to complete courses so that they may be included in the students degree.

Course contents

Parts of compulsory courses from the first three years of the programme in Engineering Physics.

Course literature

Decided individually.

Examination

- INL1 - Assignment, 4.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

If the course is discontinued, students may request to be examined during the following two academic years.

Other requirements for final grade

Examiner (the programme director in Engineering Physics) decides on transfer of credits.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
